

# In Solidarity We Will Make Change Happen!

Tens of thousands of people in Asia, North America and Europe have started a relay 24-hour hunger fast to protest the Chinese communist regimes worsening human rights and their recent violent attacks to silence journalists and lawyers who strive to protect Human Rights in China. Recently over 51 human rights lawyers, writers and journalists were secretly kidnapped, beaten severely or illegally shut down and threatened for wanting to defend citizens wronged by the communist regime.

"Our hunger strike protest is out of absolute necessity, as our compatriots in China are risking their very lives to protect the rights of fellow humanbeings. With one mind, we state our support for all those who support civil rights under extreme hardships."

I support the Relay Hunger Strike.

I call on the Prime Minister to support all those who experience extreme hardships such as lawyers, writers, journalists, political dissidents who are illegally incarcerated, as well as all those who are brutally persecuted for their beliefs, including Falun Gong practitioners, Tibetans, Christians, Catholics.
